**Quiet Sun
Mainstream**
First seen in 1975,
this combines the
considerable
creative talents of

Phil Manzanera and Brian Eno. Quiet Sun formed in 1970 but split up two years later without producing an album. During a break from Roxy Music, Manzanera reformed Quiet Sun to record their earlier composed material. With 50 pages of pictures, reviews and even record company rejection letters from the time, this release is one for real fans. Brian Eno's role includes 'treatments and oblique strategies' and with song titles such as Mummy Was An Asteroid, Daddy Was A Small Non-Stick Kitchen Utensil, musically this is clearly in the experimental category.
